Discord:     Yes     No     Somewhat

Moodle:     Yes     No     Somewhat

Zoom:     Yes     No     Somewhat

Google Suite:  Yes     No     Somewhat

Other Skills: \_\_\_\_\_

NHI will deliver a digital curriculum during the spring and summer of 2022, as well as in-person curriculum. We will need to build our data capacities of schools who don't yet know about us to share information. We will need to conduct outreach to families via phone/emails, and provide high level customer service. We will need to mentor high school age students in the digital environment to help them advance their communication skills and their college readiness skills. We will build and deliver a global interactive program online, and community in person, for students to play roles in governance, management and constituency development. We will train students to ready them for college. Finally, we will conduct research on student concerns about college, as well as learn where our NHI high school graduating seniors are headed to college. Based upon your background, where do you see yourself enjoying engagement in any of the aforementioned areas?

\_\_\_\_\_
